## Greetings

### PRESIDENT OF THE ITALIAN CANOE FEDERATION

Sport, with a capital S, returns to Italy and it does so in the magnificent setting of Auronzo di Cadore with the European Dragon Boat Championships.

It will be an extraordinary event, capable of combining competition and the desire for results, the beauty of the landscape and the warmth of an Italian welcome and organisation.

It is with great pleasure that I greet all those who will be key players during the race days; at the same time I greet all those who, behind the scenes, are already working so that at the start of the first qualifying heat, everything will be ready and perfectly operational.

Passion, expertise, skills. These are the essential elements that all of Europe will find at Auronzo di Cadore in the occasion of this extraordinary event. A sincere thank you to the Organising Committee and to my friend Andrea Bedin, to the local authorities who have always been at the side of our Federation and to all those who are helping us and supporting us so that sport, through its messages and values, becomes an even stronger motivation for aggregation, growth and development.

See you all soon in Auronzo di Cadore.

**Luciano Buonfiglio**  
*President Italian Canoe and Kayak Federation*

### MAYOR OF AURONZO DI CADORE

It is a great source of pride for the City Council and for the entire community to be able to host in Auronzo di Cadore the 2015 European Dragon Boat Championships for Nations and Clubs, programmed for next July. An important event in which the waters of Lake Santa Caterina, together with the Tre Cime di Lavaredo, symbol of the Dolomites and a UNESCO World Heritage site, are once again featured in a unique and prestigious opening to Auronzo's summer season.

It has always been a natural backdrop for the international canoe and dragon boat competitions in which athletes from all over the world find themselves competing in a unique environment. Once again the combination of sport and nature prove themselves successful in conveying strong emotions, memories and values.

A natural setting with lakes, streams, meadows and mountains which for years have welcomed the enthusiasts and athletes of canoe and dragon boat disciplines, who competing in Auronzo bring out the best of what these spectacular sports have to offer.

The shores of the lakes are brought to life and colored with athletes, supporters and fans from all over the world and the waters of the lake are transformed into a regatta venue in which all the magic and beauty of these spectacular sports events are reflected.

We hope that this winning combination can create a partnership that is increasingly important for our community, a way of promoting Auronzo and Misurina, and their extraordinary beauty to the world.

Yours

**Daniela Larese Filon**  
*Lord Mayor of Auronzo di Cadore*

## ORGANISING COMMITTEE

The Organising Committee for the 2015 European Dragon Boat Championships for Nations and Clubs is based in Venice because it is formed within the Venice Canoe & Dragon Boat club [www.venicecanoe.com](http://www.venicecanoe.com).

The President of the O.C is Mr Andrea Bedin (sports curriculum in Italian and English on LinkedIn). The members of the O.C have gained experience in organising sports events and many also have professional roles. The O.C will look after the organisation of the 2015 European Dragon Boat Championships, the related sports, social and cultural events and the raising of funds necessary to run the event. The O.C will perform its work with the assistance of VCDB SERVIZI SRLS and Venice Canoe & Dragon Boat asd.

## The Dolomiti Mountains and Auronzo di Cadore

Auronzo Misurina is the land of the Tre Cime di Lavaredo, and with its three fantastic alpine lakes, are part of the Northern Dolomites, the largest of the nine areas making up the Dolomite World Heritage Site.

They are part of a range of mountains shared by the provinces of Belluno and Bolzano bordering at the Pusteria, Sesto, Badia, San Cassiano, Boite and Piave valleys and containing some of the most famous massifs in the Alps: Tre Cime di Lavaredo, Cadini di Misurina, Sorapiss, Monte Cristallo, Marmarole, Antelao and the Croda dei Toni at Mt. Popera.

The Dolomites were made into a World Heritage Site on the 26th of June 2009 by the UNESCO World Heritage Committee at a meeting in Seville for their "series of extraordinarily distinctive and exceptionally beautiful natural mountain landscapes", "their variety of sculptural forms" and "their vertical, pale peaks".

Furthermore, the area possesses a complex of values of international scientific importance given its "quantity and concentration of extremely varied calcareous formations" and unusual geological features.

In August 2009 the ceremony assigning World Heritage Site status to the Dolomites took place in Auronzo in the presence of the President of the Italian Republic Giorgio Napolitano.

### AURONZO DI CADORE

Located only 135 km from Venice, Auronzo di Cadore is a famous holiday resort in the Belluno Dolomites. In the northernmost part of the Veneto region near Cortina, Comelico and the upper Pusteria valley, it extends along the left bank of Lake Santa Caterina at around 900 metres above sea level.

Surrounded by forests and some of the most beautiful mountain massifs in the Dolomites – it is the only urban centre from which the Tre Cime di Lavaredo are visible - Auronzo is the ideal location for a relaxing and sporty holiday.

At an ideal altitude, its pleasant, spruce shaded walks along the banks of the lake, a level cycle and pedestrian track covering the approximately 8 kilometres of the valley, its many opportunities for entertainment and socialising, the tree lined avenue in the centre, its cultural events, its characteristic views onto hidden footpaths – all these make Auronzo one of the most sought after destinations in the Dolomites.

Special attention is paid to families in the Monte Agudo area in particular. In winter the ski school's instructors accompany children and beginners as they try out the snow for the first time and in summer you can speed along the longest fun bob in the world or climb the trees at the Tre Cime Adventure Park.

Auronzo also offers a full calendar of sporting and cultural events beginning with Lazio football club's summer retreat and continuing with international canoe and dragon boat competitions, mountain running races, cycling's Giro D'Italia and Christmas evenings on the lit up slopes.

In winter, Auronzo and Misurina lend themselves to the practice of a wide range of disciplines on snow and ice from alpine skiing, with the two centers included in the Dolomiti Superski circuit, Nordic skiing, to hiking with snowshoes, and ice skating. For the more daring there are the rides on the snowmobiles and ice karts.

Also important is the cultural part of the Palazzo Corte Metto Multi-theme Museum which outlines the history of the valley, while the open-air museum of Monte Piana still recalls, after a hundred years, the tragedy of the First World War.

### MISURINA

Further north, Lake Misurina (1,754 metres above sea level), the "Pearl of the Dolomites", reflects Cadini, Cristallo and Sorapiss mountains, while Lake Antorno accompanies the ascent to Rifugio Auronzo, the starting point of the routes around the Tre Cime. Right at the foot of the Tre Cime di Lavaredo, geology supplies an insight into marine life in the Triassic period in the immediate aftermath of the greatest extinction ever recorded in the history of the Earth: a dinosaur footprint is clearly visible in a rock face along the footpath leading from Rifugio Auronzo to Rifugio Lavaredo. This same dinosaur also appears in a large plastic model in the Palazzo Corte Metto Multi-theme Museum in Auronzo.

Halfway between Auronzo and Misurina you can find the Somadida Forest, the largest forest in the Cadore region and one of the most beautiful protected areas of the Dolomites, which can also boast a rich "Forest Library."

## LAKE SANTA CATERINA THE REGATTA VENUE OF AURONZO

In 1930, work began on creating a dam to collect the waters of the Ansei River, creating a basin approximately 2km long. The lake is located at 830 mt above sea level.

Venetians used the towns in the Dolomites as summer holiday areas to escape the oppressing heat of the lagoon in the summer months, often bringing up boats from the lagoon to the lake for traditional rowing demonstrations and fun regattas.

Almost 40 years ago, the first canoeing races were held on the lake. Over the years, the popularity of this summer race grew due to the unique and beautiful surroundings of the lake.

The Lake of Santa Caterina is a mountain lake and as such, not a permanent regatta course. The level of the lake during the winter months is at a minimum, often covered by ice and snow, and is only raised to full capacity during the summer months in the lead up to the canoeing regattas. All the facilities are created ad hoc for each competition, and improvements have been made every year. All the essential facilities are available.

From its humble sporting beginnings, the Lake of Auronzo (as it is also known) today hosts the International Flatwater Sprint Kayak Regatta, with 2014 seeing a record of over 600 athletes.

In 2013, the municipality of Auronzo purchased Automatic Starting Blocks. These were used for both the 2013 and 2014 canoe regattas as well as the 2013 Italian Dragon Boat Championships.

**Auronzo is now one of only 5 locations in Italy where automatic starting blocks are used, and the only one of its kind in Italy that can be used simultaneously for both kayak/canoe and dragon boat racing.**

In 2015, Auronzo will once again be the centre of international attention with 2 weekends of international events - the International Flatwater Kayak Sprint Regatta and the Italian Masters Championships (26-28 June)- with an expected 700-800 athletes- followed by the European Dragon Boat Championships (2-5 July).

The Organising Committee of the European Dragon Boat Championships has also been organising the International Sprint Kayak regatta since 2008.
